If you have any questions about these instructions, please get in touch with your contact at Tibnor.

1. Application

In order for Tibnor to plan arrival, receiving and inspection of incoming goods, all suppliers should follow these instructions. For sheets and heavy plates, see Appendices 4 and 5.

As supplement to these instructions, additional information can be found in the order, in Tibnor's technical product specifications, and/or in a specific written contract signed by the supplier and Tibnor.

If information in the order or the contract conflicts with these instructions, contact Tibnor (usually the person who wrote the order) for information on how to proceed. If no documented contact is available, information applies in this order of priority: (1) order, (2) contract, (3) product specification.

2. Business ethics, environment, and sustainability

Tibnor is a company within the SSAB Group ("SSAB"). The supplier agrees that it will perform the work under any order from Tibnor in conformity with the principles expressed in SSAB's Code of Business Ethics and SSAB's Environmental and Sustainability Policy (each of which can be found on SSAB's website www.SSAB.com).

SSAB actively support the UN Global Compact's principles and we encourage our suppliers to align with the same principles (available at www.unglobalcompact.org). Tibnor, or a third party assigned by Tibnor, reserves the right to conduct reviews of our suppliers or on-site audits to ensure compliance with the principles mentioned above. The supplier agrees to cooperate in order to facilitate such reviews or audits. Tibnor also expects the supplier, within its sphere of influence, to monitor its own suppliers for commitment to environmental and social responsibility.

Also to be seen on the web:

<https://www.ssab.com/company/sustainability/responsible-partner/business-ethics-and-anti-corruption>

<http://www.ssab.com/company/sustainability/responsible-partner/responsibility-in-the-supply-chain>

3. Acknowledgement of order

- All orders from Tibnor must be confirmed within 7 days of order date.
- Immediate deliveries must be confirmed by email.
- Order acknowledgements must be sent to the specific address listed in Appendix 1.

4. Marking of goods

Marking must be permanent and readable.

The label on goods must include:

- Tibnor's order number
- The supplier's name
- Material type/grade
- Material number
- Dimensions
- Quantity, weight gross/net
- Charge/heat number
- If the shipment contains several units of material, each unit must be labeled
- Color marking as recommended by Tibnor

The need for any additional marking is stated in our order.

5. Notice of dispatch

Dispatch notifications for all shipments to Tibnor must be sent by fax or email no later than the day of shipment, or dispatch notices (via fax or email) can be issued when goods are ready for collection. Contacts for dispatch advice notices are listed in Appendix 2 and contacts for information regarding material ready for collection are listed in Appendix 1.

The dispatch notice must contain:

- Supplier's name and reference number
- Tibnor's order number and ordered item's number
- Delivery address
- Type, dimensions
- Means of transport (registration number, name of ship and shipping date, container number, railroad car number)
- Name of transport company
- Quantity in pieces, kilograms, and/or meters
- Total number of packages
- Charge/heat number

6. Transport & Safety

- Due to safety reasons ALL DRIVERS must wear long sleeves and long trouser (no shorts), reflective vest, safety shoes and helmet or safety protected hard-cap. Safety glasses is also required. All other safety instructions given by Tibnor staff on arrival and when unloading in the warehouse must also be followed.
They must also be able to communicate in English, German or Danish. All instructions to the drivers are given in English, German, or Danish and must be understood and followed.
- Opening hours for unloading at our stock in Denmark, see table below. Trucks arriving later than below mentioned times may have to wait until the next morning or available unloading time. The reason for this is that the same equipment is used to unload trucks and to load trucks destined for customers. If a truck is delayed, you should contact the transport department so that disruptions can be minimized.
- **Booking of timeslot: Email tcl.log@tibnor.com**

Hours for unloading trucks:

TCL Unloading MUST be finished	Mon-Fri	06.00 -13.30 14.00
-----------------------------------	---------	-----------------------

Please note that holidays may cause some exceptions to our opening hours.

- The transport vehicle used must be weather-protected according to Tibnor's instructions and be adapted to the recipient's unloading facilities. For shipments to TCL this means trucks must have removable tops that can be opened prior to unloading unless it is raining/snowing. No trucks with closed compartments are accepted. Unloading by front-end loader results in delays and extra costs.
- The goods must be placed on a minimum of three wooden strips with a minimum height of 70 mm so an overhead crane and straps can be used to unload. The size of the bundles should be approved by Tibnor. Bundles should only contain one dimension and material from one charge.
- The goods must be transported on even, horizontal supports to minimize the risk of damage.
- The speed limit is 15 km/h within Tibnor warehouse areas.
- Drivers must follow Tibnor's general safety regulations, including wearing safety vests. Instructions will be given to the driver upon arrival in the reception at TCL.
- The unloading sequence is planned by Tibnor's Shipping Department.
- Unloading time is expected to be app. 1 - 1,5 hours per truck. Unloading time starts, when the truck is inside the warehouse.
- Vehicles with hazardous materials.

The following restrictions apply to vehicles with hazardous materials arriving at Tibnor's facilities:

Hazardous materials Classes 1–5

Vehicle is allowed in the facility, but the part of the vehicle containing the hazardous material must not be opened.

Hazardous materials Classes 6–9

Vehicle is under no circumstances allowed in the facility.

7. Documentation – distribution

The following documents must be sent on the dispatch day.

Document	Number of copies	
	Shipping agent	Tibnor
Sent to		
Notice of dispatch, preferably in PDF format via email; see Appendix 2 for address		1
Delivery notice (same info as notice of dispatch) must accompany all shipments, including rail cargo		1
Certificate of origin (when applicable)		1
Single Administrative Document (SAD); applies to non-EU countries (must accompany the goods)	1	
Material Certificate, preferably in PDF format via email; see Appendix 3 for address		1
Invoices from EU suppliers, preferably in PDF format via email; see Appendix 1 for address. 1 invoice per file!		1
Invoices from non-EU suppliers, preferably in PDF format via email; see Appendix 1 for address to Tibnor. 1 invoice per file!	1	1

The delivery is considered incomplete until all requested documentation has been received.
For addresses, see Appendices 1, 2, and 3.

8. Invoices

Invoices should be addressed to Tibnor A/S as follows

E-mail for invoices:

autoinvoiceDK@tibnor.com

(Note! Only one invoice per PDF)

Email for reminders/statements and questions:

bookkeeping@tibnor.com

Invoicing address by post

Tibnor A/S
 Klokkestøbervej 18 2. sal
 DK-5230 Odense M
 Denmark

Incomplete or incorrect invoices will be returned to the sender.

9. Deviations from orders, instructions, or contracts

Tibnor must immediately be informed about any deviations from these instructions, our order, or signed contracts. Inform the person who placed the order.

10. Claims handling

If defects are found in delivered material, the supplier will be informed and must immediately confirm receipt of the message. The supplier must advise Tibnor of their action plan within five (5) working days of being informed of the problem.

11. Updates to these instructions

The most current version of these instructions is published at
https://www.tibnor.dk/da_DK/om-tibnor/leverandorplysninger

Appendix 1 – Addresses for order acknowledgements and, if applicable, information that material is ready for collection
